## Environmental Policy

Nexus Audio Visual Limited is committed to managing it's business practices to contribute to securing the future wellbeing of our planet.

Wherever possible Nexus will resource from recognised "green" sources.

Nexus will always endeavour to lighten our transportation load, thus reducing vehicle pollution.

Nexus will always use low power equipment wherever possible.

Nexus does not print any unnecessary documentation and is uses digital filing at every opportunity.

Documents generated by Nexus are sent via e-mail and not post.

Travel is being reduced by utilising e-meeting and conference telephone calls.

Nexus and it's business partners are creatively addressing our market with special promotions that encourage customers to re-use our services once in place. Avoiding multiple "set ups", duplication of work and repeated transport.

The disposal of stock is managed with the environment in mind.

Batteries are disposed of correctly.

Please do not print this unless it is vital.
